] I am very interested in Fox Hunts. I went on one in my waiting period
]last summer. It was great!! Does anyone go to these? Do you know of any

]catalogs that specialize in this sport?

I would check around your local ham clubs. You may find active fox hunts of one sort or another.

73 magazine carries a regular column on T-hunting by Joe Moell.

You may also want to get Moell's book on Direction Finding - available from many ham dealers.

I know of no catalogs about it - it is a rather narrow specialty.

Subject : Re: Earphone Phasing - an experiment

watson@wink.corp.sgi.com (David M. Watson, Jr.) writes:

]Listening to audio from any source with a phase difference between ears
]just drives me crazy. Always has. Like some people react to fingernails
]on blackboards.

]I read "The Complete DXer" and at first couldn't believe the advice to
]wire headphones out of phase for enhanced CW copy. Then I realized maybe
]other people can stand listening to stereo 180 degrees out of phase.
I would point out that only a small frequency range is going to be out
of phase at any one point in space. Thus a stereo "180 degrees out of phase"
is a misnomer for the higher frequencies.

] -D.

Subject : Re: Handhelds on airplanes

If you fly and choose to put your HT in your checked luggage,
better check the airline's policy on what they will replace if your
luggage gets lost..."personal electronics" are usually excluded...

How do I know this? Because I sweated out a couple of weeks while
I waited for an airline to find my suitcase, that I had two ICOM
HTs in...they found it eventually, but from then on, after finding out
about the policy, I carry on all "personal electronics".

I can't think of a good reason why a tax-evading illegal-alien felon
couldn't make a citizen's arrest (although I can think of reasons why s/he
might not want to).
